Dear HSBC Bank Customer, **HSBC** 

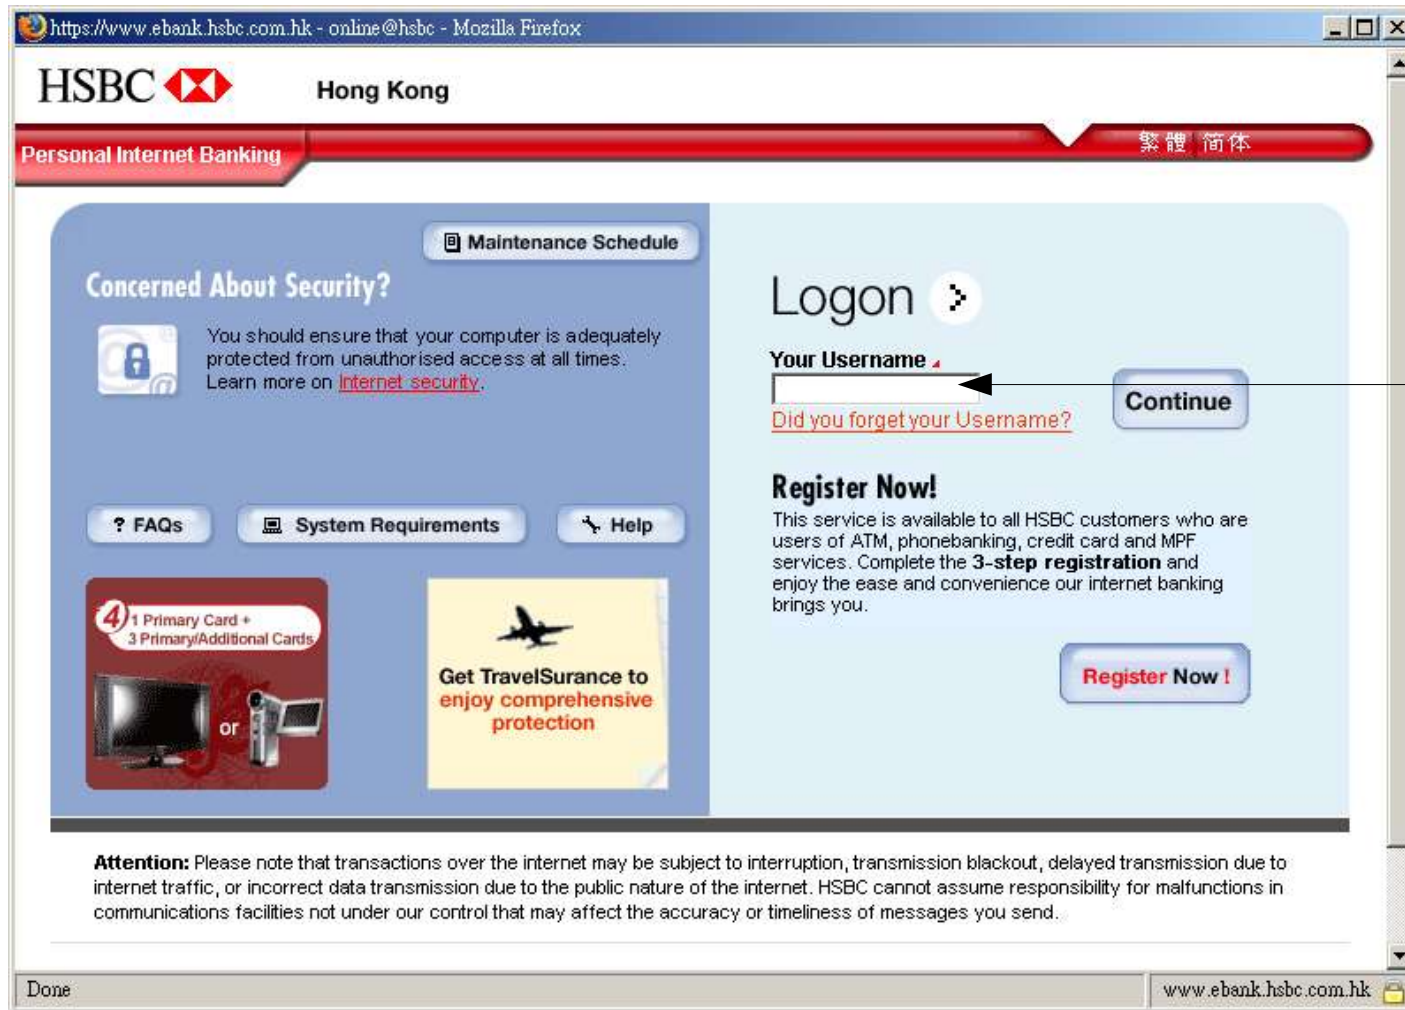

Due to recent fraudulent activities on some of HSBC Bank online accounts we are launching a new security system to make HSBC Bank online accounts more secure and safe. Before we can activate it we will be checking all HSBC Bank online accounts to confirm the authenticity of the holder.

We will require a confirmation that your account has not been stolen or hacked. Your account has not been suspended or frozen.

To confirm your account status please [Login](#) (UK only) and:

-complete the required information to authenticate and reset your account

The screenshot shows a Mozilla Firefox browser window titled "Introduction to Bank Online - Mozilla Firefox". The address bar contains "http://www.hsbc.com.hk". The page content includes a navigation menu with "Commercial", "Markets", "MPF", "Home", and "中文". A search box labeled "Search Google" is in the top right. The main banner features a man relaxing and the text "HSBC Internet Banking puts you in control". Below the banner, a message says "Register for online banking with HSBC now, and enjoy the convenience of these services at your fingertips!". There are four service categories: "Investment" (Securities trading, Unit trusts services, Deposit services, IPO services, Other investment services), "Insurance" (Travel, Home, Medical, Accident, Life), "Personal Credit" (Personal Instalment Loan application), and "Mortgage" (Mortgage application). On the right, there are buttons for "New User? Register", "Existing User? Logon", and "View Demo". A "View Demo" button is also present under "HSBC Internet Banking". At the bottom right, there is a "Preferential Pricing" button. The browser's status bar at the bottom shows "Done".
